

Supply Chain Intern

The goal of HydraForce's internship program is to develop future Supply Chain resources for our organization while providing support to our Supply Chain group. We structure the Supply Chain internship to allow candidates the opportunity to develop knowledge and skill-sets unique to our industry. Project tasks reflect an increasing level of technical complexity based on demonstrated proficiency and success on prior assignments. Although there is no guarantee of employment, it is our goal to have our interns fully capable of stepping into an entry-level Supply Chain position upon graduation.

Supporting Job Elements:

- Work with internal/external customers and cross-functional teams on various projects to optimize the supply chain
- Perform fact based, data-driven analysis/modeling on data across the business
- Process automation/analysis experience (Power BI, ad hoc reporting)
- Assist in the delivery of cost improvement projects
- Perform data validation for analytics.
- Assist in the delivery of process improvement projects
- Identify ERP system vendor and material master updates

Qualifications:

- Committed to a Supply Chain college undergraduate program
- Completed a minimum of 24 hours at the university level
- Basic proficiency in MS Office Suite
- Good written and oral communication and interpersonal skills
- Self-directed and motivated

Majors Desired:

Supply Chain Management, Business, Logistics

Program Dates:

May 30-August 4, 2023 Full Time

***Candidates MUST be able to commit to this time frame

Applications are due no later than March 1, 2023. Please click here to apply:
